Report from Cienfuegos—Inspection of vessels—Mortality statistics.

Acting Assistant Surgeon McMahon reports, June 10, as follows: During the week ended June 6, 1903, three bills of health were issued to vessels going to ports in the United States, all in good sanitary condition and no sickness on board.

The mortuary report for this week shows there were 15 deaths in the city from the following-named causes: Tuberculosis, 1; pernicious fever, 4; meningitis, 1; tetanus, infantile, 1; other causes, 8; total, 15.

There was a good rain during this week, and it appears that the rainy season has begun and that the scarcity of water is relieved.

Good reports are received from the surrounding country as to general health conditions, except that a considerable number of cases of malarial disease have occurred.
